

RAYS 2022 SCHOLARSHIP Financial UPDATE

We have been informed that, currently, the OSAP Estimator functionality may not be available prior to our application deadline of May 2, 2022.

This makes it difficult for the applicant to understand the affordability of post-secondary education. It also has an impact on our ability to fully evaluate applications. The input we receive from the Estimator is a critical input into our understanding of the relative financial need of our pool of applicants. **Financial need is an important criterion for us so we need to fill in this gap.**

If the OSAP estimator is now available please use and submit it.

If not, please provide the following information.

The key information we need to receive to replace the Estimator information is as follows:

- Scholarship applicant's name: _____
- Marital Status of Student's Parents: _____
- Number of Dependent Children in your family: _____
- Number of Dependent Children attending post-secondary education: _____
- Gross Income Yearly for Parent 1 from all sources: _____
- Gross Income Yearly for Parent 2 from all sources: _____

We would ask that each applicant provide this information to us in the space provided above with their application. We will confirm this information later in the process.

We treat all information we receive in strictest confidence including anything provided here. If you are uncomfortable providing this information in the application, we will do our best to evaluate your candidacy on the other factors and seek clarification of the financial need at a later date.

We look forward to reviewing all scholarship applications. If there are any questions, please email Barbara Lemaire barbaraac3@gmail.com
